CAREER OBJECTIVE

As a Computer Science student and passionate developer, I’m looking for an opportunity to start my career with a company where I can learn from real-world projects, contribute with my skills in Java Spring Boot, and grow as a full-stack developer. I’m eager to work in a collaborative environment and build meaningful, user-focused applications.

EXPERIENCE

React Developer Intern	Celebal Technologies – B. Tech, 3rd Year	April 2025 –Ongoing
<ul style="list-style-type: none">Developed dynamic and responsive UIs using React.js, Redux, and REST APIs.Collaborated with QA to identify and fix UI/UX bugs; wrote and executed test cases.		
Android Developer Intern	ThinkNext Technologies – B. Tech 2nd Year	Apr 2024 – Aug 2024
<ul style="list-style-type: none">Worked on multiple Android applications using Java and Firebase.Conducted manual testing of Android modules using emulator and real devices.		

PROJECTS

Job Portal Web Application	Link	MERN Stack (MongoDB, Express.js, React, Node.js), Tailwind CSS
<ul style="list-style-type: none">Developed a full-stack job portal enabling role-based access for job seekers and recruiters with dynamic job listings & applications.Implemented a responsive UI using Tailwind CSS and built secure REST APIs for user authentication and job data management.		
Project Management System	Link	Java, Spring , Spring Boot , MySQL , React , HTML , CSS, Javascript
<ul style="list-style-type: none">Built a Java Swing-based admin dashboard for managing librarian data with secure CRUD operations and input validation.Designed modular tabbed panels using JTabbedPane and developed JDBC-based DAO classes for efficient database handling.		

SKILLS

- Programming Languages: Java, Kotlin
- Databases: MySQL, MongoDB, Firebase, SQLite
- Soft Skills: Communication, Teamwork, Leadership, Problem Solving, Time Management
- Frameworks: Spring Boot, React, Tailwind CSS, Bootstrap
- Technology: Front End Web Development, Android App Development

EDUCATION
